CV 08 1977

Case No. SBA (PR)

Motion To Have The
Court To Put Petitioner's
Name on the List for
The Pro Bono Project

FILED

APR 16 2008

RICHARD W. WIEKING
CLERK, U.S. DISTRICT COURT
NORTHERN DISTRICT OF CALIFORNIA

✓
Petitioner hereby asks the Court to
Assign attorney to this case (SEE accompanying Declaration)
because of the need to gather medical records from childhood
(Louisiana) through adulthood (California and Military). I
further emphasize (SEE Declaration) that I have been denied
law library access now, for a few years, because of my
immobility and the institution's stubbornness in regards
of providing assisted devices (SEE Appendix 'E'). The Pro
Bono Project would be a just solution and aide in pre-
paring this case for trial.

DATED: 3-30-08

DECLARATION

I believe that the differences involved in this case is irreconcilable for the simple reason (I believe) that the defendants seek to exercise SUPREMACY and DICTATORSHIP; the determinant of LIFE or DEATH; that I must submit the dictates of my life too, or become a victim and eventual statistic of. They bring perverted religious practices (I believe they are highly aggravating my stomach condition by taking stray carcasses - either roadside or wilderness - and preparing extremely stinky breakfast hamburger-style sausages, usually bi-weekly) (ALSO SEE Appendix 'H') to shear life.

I haven't had physical law-library access since, at least, November 2005, when my Case Chronic was discontinued by doctors Rowe & Sayre. I thought I had regained enough mobility, by the aide of medicine, during a part of last summer, however, that isklung quickly died at the hands of Dr. Rowe discontinuing medication: first discontinued Motrin; second, the Elavil; finally the Tegretol. Judge Nandor

VADAS (SEE Appendix 'F') was assigned by Judge Armstrong, of this Court, to oversee the execution of the Settlement Agreement, however, I have wrote him at least twice, about wintion actions of Dr. Rowe discontinuing medications, a part of the Settlement Agreement: No response.

I'm beginning too suffer financial losses, at an increasing frequency (SEE Appendix 'G').

Accordingly, I'm convinced that the defendants are determined and committed to making my life, a simple living hell, and I ask for the Court's intervention.

I declare the statements of this Declaration and those composed within this Petition ~~are~~ truthful and correct, and intended for those purposes only.
